

FOR COOLING OUT LOUD

MIA EEMS 2023 Net Zero Motorsport Conference in association with WAE

As a regular attendee of the MIA EEMS event, SPAL Automotive UK MD Matthew Morris was interested to find out how the new format of a 'visionary discussion Forum' would work.

It turns out very well indeed, with some lively debate about how the proposed 2030 cutoff for ICE production would affect motorsport and presentations on 'net zero' changes in technologies, fuels and powertrains.

WWT Project

With spring already sprung, SPAL is ready to become more involved in the work of designated charity Worcestershire Wildlife Trust with a visit to prime conservation site, Lower Smite Farm.

Matthew Morris is donning his wellies to tour the site and find out how SPAL's donation is being used to purchase nest boxes and bird feeders to support WWT's efforts in protecting key species.

Look out for an update on the visit coming soon to the news section on the website.

Cool guy says...

The things that were important yesterday are not necessarily important today.
