

# FOR COOLING OUT LOUD

## SPAL Drives Deeper into the Bus Market

When it comes to SPAL's high performance fans and blowers, the products speak for themselves but there is nothing like getting up close with one of the vehicles fitted with them to appreciate why you need them on board.

A few weeks ago, the SPAL team paid a visit to Newport Bus to film a clip about where to find SPAL fans and blowers and what function they perform.

We managed to persuade SPAL UK MD Matthew Morris to be the presenter because he knows the products inside out. We think it has a Tomorrow's World vibe.

[Watch it here...](#)

SPAL enjoyed mingling at the Motorsport Industry Association Conference and Technology Showcase and talking about a new OEM product, the SCP02 water cooling pump.

Already impressing in bus & coach circles, the event was a chance to expose it to a wider audience spanning motorsport, automotive, aerospace, marine, defence, rail and advanced engineering.

## Goodbye to Kevin

It was a difficult decision, but Kevin Johnson is leaving SPAL at the end of the month to take up a new position. We are actively recruiting Kevin's replacement to take on the refrigerated transport and niche vehicle sectors. Kevin made his mark after a year with the business and we wish him well in his new venture.

## Cool guy says...

When change is  
constant, don't  
expect stability

## MEET THE TEAM

**Matthew Morris,**  
Managing Director
