

FOR COOLING OUT LOUD

New Year Message

2021 was certainly an 'interesting' year, both globally and for our business. We welcomed some new team members and said goodbye to others, and together they helped SPAL UK to finish the year on a high. We saw some recovery growth in the year with the refrigerated transport sector delivering a strong performance, boosted by the explosion in home shopping prompted by lockdown. Strides were also made in the bus & coach and agricultural sectors.

We also took the hard decision – just the 3rd time in our trading history - to increase prices. The impact of the pandemic has caused the cost of everything from cardboard to containers to rise astronomically. Accordingly, SPAL reluctantly broke with its usual tradition in order to secure stability and ensure that we will be around long-term to support our valued customer base.

Thank you for your business in 2021 we look forward to continuing the journey in 2022 as we move forward, while learning to live with and manage the impact of the virus.

Matthew Morris, MD, SPAL Automotive UK

Cool guy says...

Resilience means trying something different
