

FOR COOLING OUT LOUD

Meet Sally

Introducing our new SPAL mobile exhibition vehicle which we can't wait take out on the road to shows across the country.

Nicknamed Sally, she makes her debut at SAGE 27-29 July at the Three Counties ground in Malvern. For us as for many others, it will be the first in person event for over a year with plenty of outdoor space to keep safely distanced.

Still being kitted out, a coffee machine will be fitted – plans for on tap Peroni were overruled – and it will be a great place for an invigorating cup of Italian blend and a chat about all things thermal management.

See you there and come aboard!

Harper Adams Scholar

We received an update from the Harper Adams Development Trust about the progress of Max Finch, the recipient of SPAL's exclusive scholarship with the renowned agricultural university.

"The term has indeed started and it's hard to believe that this academic year will soon be over! Max Finch will be awarded with his SPAL Automotive Scholarship at the annual Scholarship Presentation on Wednesday 12th May."

SPAL will be tuning in to the Online Scholarship Presentation and sending Max a message of support as well as finding out more about his plans to use the funds to enrich his learning.

Read more about SPAL's partnership with Harper Adams and the importance of fostering the next generation of engineers here:

SPAL supports engineering talent

Cool guy says...

Teach the next generation early what we learned late

MEET THE TEAM
